Dear Friends of Sinegal Estate,

From our historic St. Helena estate purchased in May, 2013, we are honored to share our inaugural vintage with you.

We have been working tirelessly to create an extraordinary experience both in and out of the bottle. Our vision is simple: Achieve the best possible results by thorough pursuit of excellence at every small step in the process. It is this precision viticulture & winemaking that help us achieve something unique: Wines that will always strive for perfection, regardless of Mother Nature's inclinations.

Although our wines drink beautifully now, we recommend laying them down in a cool aging environment for 2-3 years before tasting them, allowing for further development. They are all expected to hit full stride in 8-12 years.

We appreciate your early support of our wine – an effort that reflects the terroir behind one of Napa Valley's most stunning properties.

Our Warmest Personal Regards,

David Sinegal | *Jim Sinegal*

PROPRIETORS, DAVID SINEGAL & JIM SINEGAL
